ABOUT THE INSTITUTION

The primary objective of Hindusthan Institute of Technology is to educate and prepare the students for leadership in industry, Government, and educational institutions to advance the knowledge base of the engineering profession and to influence the future directions of engineering education and practice.

The educational programs in the college emphasize the understanding of fundamental principles by facilitating experimental, computational, analytical methods and improve the self-confidence and versatility of mind that prepares the individual for a lifetime of learning and professional growth.

AFFILIATION

Our college is established in 2007, approved by the All India Council of Technical Education, New Delhi, affiliated to Anna University, Chennai and ISO 9001:2015 certified. Our college is accredited by NBA and NAAC with 'A' grade. The Institution is well known for its high educational standards with excellent infrastructures, spread over 200 acres and is located on the Coimbatore - Pollachi National Highway. The Institution currently offers 7 UG and 4 PG programmes.

SCOPE OF CONFERENCE

Majority of the systems used in all fields of science and engineering are nonlinear in nature. With the advent of big data storage and analytics abilities, decision making is a potential problem and requires smarter machines to organize data faster, make better sense of it, discover insights, learn, adapt and improve over time without direct programming. The scope of the conference includes the technologies such as Artificial intelligence, data mining, cognitive computing,

machine learning, data science and big data analytics, image processing, green computing, cloud computing, mobile computing etc., their applications, or a combination of these, which is essential for identifying new technologies or innovations to provide the best and optimal solution.

CALL FOR PAPERS

The National Conference on Advances in Computing Technologies is conducted with an aim to provide a National Forum for discussing and exchanging the latest developments in the fields of communication, computing and the mechanism of control features and functions for better performance for setting up a Green IT like

- Green Computing / Cloud Computing
- Block Chain Technologies
- Machine/Deep Learning
- Social Network Analysis
- Mobile Computing
- Internet of Things
- Wireless and Sensor Networks
- Artificial Intelligence
- Data Science and Big Data Analytics
- Network Design and Performance
- Image Processing and Embedded Systems.

All the accepted papers will be published in the conference proceedings. *The best papers will be recommended for publication in reputed International Journals of High Impact Factor****.* The Authors are requested to send the full-length research

papers as per IEEE format to the conference e-mail id natcact20@gmail.com
